EDUCATION

Shah and Anchor Kutchhi Engineering College

Bachelor of Engineering in Information Technology

B.N.B College of Science

12th - Science

Chembur, Mumbai

Aug. 2023 – Present

Thane

Aug. 2021 – May 2023

EXPERIENCE

Frontend Developer Intern

DigiVeritaz

Aug. 2026 – Present

Mumbai

- Developing and maintaining responsive web interfaces using React.js, JavaScript, HTML, and CSS.
- Collaborating with designers and developers to implement user-focused interfaces and improve overall user experience.
- Working on frontend development, UI implementation, debugging, and performance improvements across web projects.

Data Analyst Intern

MuSo (Museum of Solutions) - JSW initiative

Apr. 2026 – July. 2026

Worli, Mumbai

- Analyzing operational and visitor data to derive actionable insights supporting strategic decision-making at a JSW-backed innovation initiative.
- Building dashboards and visual reports using Python and data visualization tools to track key performance metrics.

Wordpress Developer Intern

DigiFalx - Digital Beginnings

Feb. 2025 – Jan. 2026

Sanpada, Navi Mumbai

- Developing and maintaining client websites, customizing themes/plugins and ensuring cross-browser compatibility.
- Optimizing site performance and implementing SEO best practices; reduced average page load by 30 percent.

PROJECTS

FactMatrix | AI-Powered Fake News Detection Platform

2026

- Built a real-time fake news detection web application using NLP and multiple news APIs to cross-reference article credibility.
- Developed the full-stack platform using React.js, Node.js/Express, and MongoDB, achieving sub-2s detection response time.

PhishGuard | Phishing Link Detection

2025

- Engineered a phishing detection system using ML models to analyze URLs, email headers, and web content in real-time.
- Selected for Smart India Hackathon – designed to protect users from credential theft and social engineering attacks.

PUBLICATION

FactMatrix: AI-Powered Fake News Detection Platform | *IEEE AsiaConf*

2026

- Published research paper on the design and development of FactMatrix, an AI-powered platform for detecting and verifying potentially misleading online news.
